

## **TIERED INTERVENTIONS SEARCH ENGINE RESOURCE**

SPAN, the Newark Teachers Union, and the Newark Public Schools collaborated on development of this Tiered Interventions Search Engine for parents and professionals. It contains information and useful tools and resources to help students experiencing academic, health, or behavioral difficulties in the public schools, including information on the Programs to Support Student Development Code, Intervention and Referral Services Teams, Section 504, and Special Education. The Search Engine also includes information on New Jersey's Core Curriculum Content Standards and indicators of progress, as well as useful instructional and support strategies to help struggling students. To access the Search Engine, click on the link below.
