

# Assistive Technology (AT) Workshops

Computer based supports can offer tremendous benefits to students with disabilities. Join us to learn how to access these important services.

**This series of hands-on workshops will help parents learn how assistive technology helps students with disabilities struggling with a range of school-related activities.**

Presented by  
Adam Krass, MS ATP  
Adam Krass Consulting

## Assistive Technology can assist with:

**Literacy | Math | Communication | Transition | IEP Process**
